## Professional Summary

I'm a front-end developer with 1.6 years of experience working with HTML, CSS, JavaScript, and React. I enjoy building clean, responsive websites and learning new things along the way. While I'm still growing in my career, I'm comfortable with the basics and always looking to improve my skills. I like being part of a team and contributing to projects where I can make an impact.

## Work Experience

Frontend Developer at Aartec Ltd | January 2022 – Present

- Worked on building and updating web pages using HTML, CSS, and JavaScript.
- Used React to create simple, interactive features for websites.
- Collaborated with team members to fix bugs and improve the website design.
- Helped make the website responsive, ensuring it works on different devices.
- Continuously learning and improving my skills while contributing to the team's projects.

## Education

B.A Graduate, University of Peshawar | 2022

## Skills

HTML & CSS, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Web Design, Basic Git & GitHub

## Projects

- Portfolio Website: Created a personal portfolio website using React and Tailwind CSS.
- Construction Website: Built a construction website using React and Tailwind CSS.
- To-Do List App: Built a simple to-do list application using JavaScript and React.
- Netflix Clone Project: Developed a Netflix clone using React and Tailwind CSS.

## Certifications & Learning

- Proactively learning Frontend Development through resources like YouTube and platforms like The Odin Project.
- Gained foundational knowledge in JavaScript, React, and Tailwind CSS through various tutorials and projects.
- Currently exploring TypeScript and Firebase to enhance my development skills.
